

	First Name	Last Name		Credentials	Topic					
1.	Jeff	Konin		Ph.D., PT, ATC, FACSM FNATA	<b>How to relocate Efficiently</b>					
<p>Dr. Konin has previously held the positions of Director of Athletics at Eastern Connecticut State University, Faculty &amp; Vice Chair of Orthopaedics &amp; Sports Medicine at the University of South Florida (USF), Executive Director of the Sports Medicine and Athletic Related Trauma (SMART) Institute at USF, Director of the Graduate Athletic Training Program at USF, and faculty and Assistant Athletic Director at James Madison University.</p> <p>Dr. Konin's published work and invited presentations have focused in the area of sports medicine with a particular interest in injury prevention and sport safety. He has shared his expertise at professional conferences throughout the United States as well as in Australia, New Zealand, Italy, Norway, Romania, England, and Austria. His experiences have included serving on the medical staff for the 1996 Olympic Games and as the medical coordinator for the USA Wheelchair Rugby Paralympic Team. He is recognized as a Fellow by both the American College of Sports Medicine and the National Athletic Trainers' Association for his contributions.</p>										
2.	Adam	Stewart		ATC, DPT	<b>Lower Extremity Functional Training: From Rehab to Reconditioning</b>					
<p>Adam Stewart DPT, ATC, LAT joined the Ohio State Athletic Training staff in Spring 2015 as the physical therapist working with football. Adam is a 2010 graduate of The Ohio State University, receiving his bachelor's degree in Athletic Training. Adam is also a 2015 graduate from the University of Miami Florida, where he completed his Doctorate of Physical Therapy.</p> <p>Adam has previously held positions with the Buffalo Bills and the New England Patriots in the NFL, Massachusetts General Hospital Sports Medicine Center and IMG Sports Academy.</p> <p>In addition to his responsibilities for the football program, Adam also teaches a course in Therapeutic Exercise for the Athletic Training curriculum at Ohio State.</p>										
3.	Kathryn Maria	Taylor		SCD	<b>The State of concussion research: What do we know and where are the gaps?</b>					
<p>ORISE Post-Doctoral Research Fellow at U.S. Army Research Institute of Environmental Medicine - Research Interests: Environmental Health, Occupational Health, Epidemiology, Traumatic Brain Injuries, Cognitive Health, Neurological Diseases, Exposure Assessment and Risk Assessment. Harvard School of Public Health Doctor of Science (ScD), Environmental Health: Environmental and Occupational Medicine and Epidemiology 2012 – 2015</p>										
4.	Nick	Valencia		PT, DPT, OCS	<b>Foundational Concepts in Dry Needling</b>					
<p>Utilize a thorough evaluation and intervention process with a focus on polyarticular chain movement dysfunction and correcting compensations in movement and sport. This methodical approach focuses on the source of the injury rather than the location of pain.</p> <p>Has a strong manual therapy background utilizing techniques such as: joint mobilization/manipulation, myofascial release, active and passive tissue release techniques, trigger point release, and integrative</p>										

	systemic dry needling. PRI based and sport specific corrective interventions are integrated to create a complete rehab program.						
	Clinical interests include baseball, patho-mechanics, and its relationship to injury and performance deficits.						
5.	Bill	Prentice		PhD, ATC, PT, FNATA	<b>Managing Faulty Foot Mechanics</b>		
<p>Professor University of North Carolina July 1980 – Present (36 years 8 months) University of North Carolina at Chapel Hill</p> <p>William E. Prentice is recognized as an author, educator, and clinician. He received both BS and MS degrees from the University of Delaware, a PhD degree in sports medicine and applied physiology from the University of Virginia and BSPT degree in physical therapy from the University of North Carolina. He is a Professor in the Department of Exercise and Sport Science, and has served as the Program Director of the NATA Accredited Post-Professional Athletic Training Education Program at the University of North Carolina at Chapel Hill since 1980. He started his career as an Assistant Athletic Trainer at Temple University prior to beginning his PhD at Virginia.</p> <p>Prentice is the author of 51 editions of nine different textbooks most notably Principles of Athletic Training. He has published more than 110 journal articles and abstracts, and has made more than 220 lectures and presentations. Prentice served as the Athletic Trainer for the Women’s Soccer Program at the University of North Carolina for 26 years since 1980 and during that period the team won 17 NCAA and one AIAW National Championships.</p> <p>Prentice has been the recipient of numerous awards from the NATA including most notably the Sayers “Bud” Miller Distinguished Athletic Training Educator Award in 1999; the Educational Multimedia Committee Videotape Production Award in 1997; and, the Most Distinguished Athletic Trainer Award in 1997. In 2004, Dr. Prentice was inducted into the National Athletic Trainers Association's Hall of Fame. In 2006, the NATA established the William E. Prentice Scholarship that is presented annually in his name. In 2008, Dr. Prentice was selected in the inaugural class as an NATA Fellow. In 2012, Dr. Prentice was inducted into the Mid-Atlantic Athletic Trainer’s Association Hall of Fame. In 2014, he was the recipient of the prestigious Dr. Ernst Jokl Sports Medicine Award presented annually by the United States Sports Academy.</p>							
6.	Zack	Kerr		PHD, MPH	<b>Decrypting injury epidemiology: Relating science to clinical practice</b>		
<p>Dr. Kerr is an Assistant Professor in the Department of Exercise and Sport Science at the University of North Carolina, and serves as the Research Director for the Center for the Study of Retired Athletes. He teaches Undergraduate Research Methods (EXSS 273). Dr. Kerr completed his undergraduate degree in Communication and Spanish at the University of Washington (Seattle, WA) in 2004. He completed his graduate work at The Ohio State University (Columbus, OH), earning two Master’s degrees in Journalism and Communication in 2006, and Epidemiology in 2010. At the University of North Carolina at Chapel Hill, Dr. Kerr completed his doctoral work in Epidemiology in 2014. He previously served as the Director of the National Collegiate Athletic Association Injury Surveillance Program. His research examines the strengths and limitations of sports injury surveillance to discuss strategies to estimate injury incidence. He also evaluates injury prevention strategies related to traumatic sport-related injuries such as concussions and heat stroke. Through his collaborations with numerous injury prevention, athletic training, and sports medicine experts, he has published over 75 research articles related to injury surveillance and traumatic sport-related injuries such as concussions and heat stroke.</p>							
7.	Josh	Nava			<b>A Friday night in October 2015, how it change my life and your.</b>		
High School Football athlete							

8.	Marcos	Nunez		MS, ATC	<b>It Takes a Village to Treat a Professional Athlete</b>				
<p><b>HEAD ATHLETIC TRAINER</b></p> <p>After originally joining the Lakers as Assistant Athletic Trainer during the 2008-09 season, Marco Nuñez was elevated to Head Athletic Trainer prior to the 2016-17 campaign. Charged with year-round oversight of the care, prevention, and treatment of injuries to the players on the roster, Nuñez works hand-in-hand with the training staff, coaching staff, and front office to ensure the highest level of performance on the court. The Los Angeles native is also chiefly responsible for player rehabilitation programs and emergency on-court procedures.</p> <p>Prior to joining the Lakers, Nuñez spent two seasons as Athletic Trainer for the Lakers' NBA D-League affiliate, the Los Angeles D-Fenders, beginning with their inaugural season in 2006-07. While working in the D-League, Nuñez served simultaneously as Athletic Trainer for the WNBA's Los Angeles Sparks, and was solely affiliated with the Sparks for the 2005-06 season. An Assistant Trainer for the Los Angeles Avengers of the Arena Football League from 1999-2003, he also spent one season as Athletic Trainer for the Carolina Cobras of the AFL in 2004 prior to joining the Sparks.</p> <p>In the summer and fall of that same year, Nuñez worked as a trainer for the movie "The Longest Yard," attending to the actors, stuntmen, and athletes on set. In addition to winning NBA championships in his first two seasons with the purple-and-gold (2009 and 2010), Nunez also served as the Assistant Athletic Trainer for the 2011 NBA All-Star Game in Los Angeles. While he always had an interest in medicine growing up, it wasn't until his freshman year at Cal Poly Pomona where he heard Head Athletic Trainer Ky Kugler deliver a keynote speech that he decided to pursue a career in athletic training.</p> <p>A graduate of Cal Poly Pomona with a B.S. in Kinesiology and emphasis in Sports Medicine who went on to receive his M.S. in Biomechanics from A.T. Still University in 2013, Nuñez was born in San Diego, but graduated from Bishop Mora Salesian High School in Los Angeles where he lettered in baseball. When not at practice, a game or traveling with the team, the self-proclaimed "weekend warrior" enjoys baseball and basketball in his free-time along with spending time with family and friends.</p>									
9.	Tom	Farrey			<b>Making Youth Sports Safe for Youth "Making Youth Sports Safe for Youth"</b>				
<p>Tom Farrey is an enterprise reporter whose work has been recognized among the nation's best on television, in print and online. A pioneer in cross-platform, long-form journalism, Farrey's pieces have won two sports journalism Emmy Awards for Outside the Lines and his stories have also appeared on SportsCenter, E:60, ABC's World News Tonight, ESPN.com, and in ESPN the Magazine.</p> <p>He is the author of Game On: The All-American Race to Make Champions of Our Children (ESPN Books), recognized among experts as a leading journalistic work on modern youth sports. The 2008 book and subsequent paperback have been made required texts in university courses on more than a dozen campuses, from Oregon State to the University of Florida. The book's insights continue to be explored through the Aspen Institute's Sports &amp; Society Program, which Farrey directs.</p> <p>Farrey began working with ESPN in 1996, as deputy editor of the website that later became known as ESPN.com. Later, as a reporter, he developed the first integrated television-online investigative packages for Outside the Lines, through stories that connected the world of sports to the most relevant themes in the broader society. His reports have helped create national conversations and been a catalyst for change, from grassroots sports to college sports and beyond.</p> <p>His 2011 report on sexual molestation allegations against longtime AAU president Bobby Dodd led to a series of reforms by the largest organization in youth sports. His 2010 E:60 profile of former college</p>									

football player Preston Plevretes, and subsequent Outside the Lines reports including one on NFL players and families who are withholding their children from tackle football, have advanced and sharpened the debate about the future of America’s favorite game.

In 2001, Farrey’s exclusive report on the torture of Iraqi athletes by Saddam Hussein’s son Uday, the nation’s top Olympic official, led to the disbanding of the Iraqi Olympic governing body by the International Olympic Committee. That year, Farrey also exposed Christopher Robin Academy, an obscure, New York high school that basketball recruits used to acquire bogus grades that qualified them to play college basketball. His report on the academy revealed a loophole in the eligibility process for coveted athletes, helping prompt the NCAA to later create a list of dubious high schools. Both stories won Outstanding Sports Journalism Emmy awards for Outside the Lines.

Internationally, Farrey has delivered reports from Europe, Africa, Australia and Latin America. His hour-long ESPN documentary, “Witness to a Defection,” on Cuban baseball defectors included a hometown interview with future major league star Jose Contreras before he fled the country. In 1999, he drew early attention to use of steroids by baseball players with a hidden-camera investigation of Tijuana pharmacies. In 2004, his series on the corrupt business of recruiting Dominican baseball prospects won top national honors from the Sigma Delta Chi/Society of Professional Journalists. He later revealed that major league shortstop Miguel Tejada had lied about his age when signing a contract.

Farrey joined ESPN after eight years as a reporter for The Seattle Times, where he covered the NBA and NFL as a beat reporter before moving to general assignment work. In 1992, his probe into the University of Washington football program revealed that the quarterback on the defending national champions had taken a loan in violation of NCAA rules. The Huskies received a bowl ban from the NCAA, and Times a best investigative reporting award from the Associated Press Sports Editors.

As a magazine writer, his work has been selected for Best American Sports Writing. His Pacific Magazine story on prison basketball, “Hard Core Hoops,” was cited by Booklist as the best of the collection in the 1996 anthology. He is now a contributing writer to ESPN The Magazine.

10.	Mark	Asanovich		<p align="center"><b>The importance of and how to correctly strengthen the Head &amp; Neck as a way of mitigating Spinal Cord and Traumatic Brain Injury</b></p>				
-----	------	-----------	---	--	--	--	--	--

Mark Asanovich is a fourteen-year National Football League (NFL) Strength & Conditioning Coach veteran. Asanovich spent six seasons with the Jacksonville Jaguars, after spending six seasons as the Strength & Conditioning Coach for Head Coach Tony Dungy with the Tampa Bay Buccaneers. He served as the Assistant Strength & Conditioning Coach for the Baltimore Ravens in 2002 and for the Minnesota Vikings in 1995.

Prior to joining the Vikings, Asanovich served as the strength & conditioning coach at Anoka High School from 1987-95. During his tenure there, the school captured state football championships in 1990 and 1994. Anoka also won state titles in soccer (1989), wrestling (1991), and basketball (1992) during his eight years at the school. Asanovich came to Anoka after spending 1986 in a similar capacity at The Citadel and 1984 & 1985 at The Ohio State University. The Buckeyes won the Big Ten Football Championship in 1984 and defeated Brigham Young in the Citrus Bowl in 1985.

Recognized in Who's Who Among American Teachers, Asanovich was a contributing author in Death in the Locker Room II: Drugs and Sports (Elite Sports Medicine Publishers, 1993), and High Intensity Strength Training (Perigue Books: Putnam Publishing, 1993). Asanovich was one of the first fifteen Certified Strength & Conditioning Specialists and former Minnesota State Director for the National Strength & Conditioning Association. He and his family reside in Victoria, Minnesota.

11.	Nicole	Dabbs		Ph.D.	<b>Baseline Balance Assessments for Concussions</b>				
<p>Dr. Nicole Dabbs is currently an Assistant Professor at California State University, San Bernardino in the department of Kinesiology. She received her B.S. and M.S. in Kinesiology at California State University, Fullerton. Her Ph.D. is in Kinesiology from The University of Mississippi. Her research interests include neuromuscular facilitation, adaptation, and recovery during sports performance as well as kinematics and kinetics during sport movements. She has been an active member of the National Strength and Conditioning Association and American College of Sports Medicine since 2008 and currently serves as the chair of the Women’s Committee for the NSCA and a Member at Large for the southwest ACSM board. Nicole has published nineteen peer-reviewed publications and reviewers for over fifteen professional journals.</p>									
12.	Sydney	Pardino		MD	<b>Common sports shoulder injuries</b>				
<p>Renowned orthopedic surgeon Dr. Sydney Pardino serves as Director of Sports Medicine at the esteemed Institute of Clinical Orthopedics and Neurosciences at Desert Regional Medical Center. In the field of sports medicine, few doctors enjoy Dr. Pardino’s sterling national reputation, evidenced by his work at the pinnacles of sport, such as the 2010 NFL Super Bowl champion New Orleans Saints, and the NBA’s New Orleans Hornets. Locally, Dr. Pardino serves as team physician for Cathedral City High School and the SoCal Coyotes semi-professional football team. Dr. Pardino specializes in both non-operative and operative treatment of sports medicine injuries, arthroscopic surgery, shoulder replacement surgery, hip arthroscopic surgery for femoroacetabular impingement and labral tears, and fracture surgery. A highly regarded expert for his fluent knowledge and vision in the ever-changing world of orthopedics, joint replacement, and sports medicine, Dr. Pardino relies on the input of his patients to ensure mutual efficacy, with the belief that “an accurate diagnosis is the result of listening to the patient.” Dr. Pardino’s dynamic passion, communication skills, cutting-edge techniques and rapid-recovery results make him a sought-after surgeon, particularly with knee, hip and shoulder. “Perhaps the most important part of an accurate diagnosis,” he explains, summarizing his personal mission statement, “is taking the time to know and listen to the patient, and hear their story.” Whether on the sidelines with world-class athletes, or through his tireless volunteer efforts with non-profits, schools and youth organizations, Dr. Pardino has served his industry selflessly.</p>									
13.	Weston	Smith		PT, DPT, OCS	<b>Evaluation and Treatment Techniques for the Athletic Knee</b>				
<p>Graduated in 1996 from Loma Linda University with an A.S. from the Physical Therapist Assistant program. He earned a B.S. in Health Sciences in 1998 and completed a Progressive Master’s in Physical Therapy from Loma Linda University in 2000. He graduated from the Post-Professional Doctorate of Physical Therapy Program at Loma Linda University in March 2002. Dr. Smith is a Diplomat of the American Board of Physical Therapy Specialties and has been Board Certified as an Orthopedic Clinical Specialist since 2003. He is a specialist in the treatment of orthopedic and sports injuries, with an emphasis on the throwing athlete. Dr. Smith has been the Team Physical Therapist for the Sports Medicine Program at Chaparral High School in Temecula since 2000. He is currently the Administrative Director for the Rancho Physical Therapy’s Orthopedic Residency Program. Dr. Smith is the Director of Clinical Services for Rancho Physical Therapy’s Murrieta location, and Regional Manager for the Central Region. He is proud to be part of Practical App again this year and welcomes you all to a wonderful weekend event!</p>									
14.	Alan	Russell		MS, ATC, NASM- PES, CSCS	<b>Trends in Recovery Science</b>				
<p>Serving as the Director of the Performance Healthcare Outreach program, he coordinates community care efforts to make “North Texas the safest place in the country to play sports” from the Baylor Scott &amp; White Sports Therapy &amp; Research at the STAR (Frisco, TX). His previous posts include 10yrs with the Anaheim</p>									

<p>Angels, 15yrs with National Academy of Sports Medicine, and 5yrs at Fusionetics. He is a Certified Athletic Trainer (BOC, 26 years), Performance Enhancement Specialist (NASM, 2001) and Corrective Exercise Specialist (NASM, 2005). He completed his Bachelor of Science (Athletic Training) at Boise State University, and Master of Science at California University of Pennsylvania. He resides in Frisco, TX with his wife and two children.</p>					
15.	Christ	Ingersoll		<p><i>PHD, AT PhD, AT, ATC, FACSM, FNATA, FASAHP</i></p>	<p><b>Interprofessional Education Initiative (Team-based care)</b></p>
<p>Christopher D. Ingersoll is the Dean of the College of Health and Human Services. Dr. Ingersoll earned a BS in Sports Medicine from Marietta (OH) College, and MA in Athletic Training from Indiana State University, and a PhD in Biomechanics from The University of Toledo. His research has focused on the neurophysiological and neuromechanical consequences of injury, particularly relating to muscle activation, and the neurophysiological mechanisms of rehabilitation interventions.</p>					
16.	Robert	Gray		<p>MS, AT</p>	<p><b>Academic Variations in Concussion Management and Legislation</b></p>
<ul style="list-style-type: none"> <li>Mount Union College Alliance, OH B.A. 1975</li> <li>Indiana State University Terre Haute, IN. 17.	Keith	Feder		MD	<b>Biologic Applications to Sports Medicine A2M, PRP, STEM Cell</b>	
<p>Dr. Feder is a Board Certified Orthopedic Surgeon, Medical Director of the West Coast Center for Orthopedic Surgery and Sports Medicine, Founder of the West Coast Sports Medicine Foundation and Past Chairman of the Department of Orthopedic Surgery at Centinela Hospital. Dr. Feder is a Clinical Assistant Professor- UCLA School of Medicine as well past chief of Sports Medicine at the UCLA-Harbor Orthopedic Residency Program. Dr. Feder is the Director of The Cartilage Restoration Center and the Medical Director of the Team to Win Sports Medicine program. Dr. Feder lends his sports medicine expertise as a committee member of the NFHS (National Federation of High Schools) and the CIF State safety committee and was appointed by the Governor of the State of California as a member of the Board of Trustees of the Health Professions Education Foundation. He is a graduate of SUNY Downstate Medical School, New York, followed by an internship and residency in orthopedic surgery at SUNY Downstate Medical Center, New York. Dr. Feder is fellowship trained in arthroscopic surgery and sports medicine. He is the author of multiple chapters and peer reviewed articles in the Orthopedic Surgery literature as well an Associate Editor of Foot and Ankle International, the signature publication of the American Orthopedic Society for Foot and Ankle Surgery. Dr Feder is a member of the American Orthopedic Society for Sports Medicine (AOSSM) and the Arthroscopy Association of North America (AANA). Dr. Feder co-created the Team to Win program to provide sports medicine expertise and treatment to low income, at risk student athletes of Los Angeles, the first of it's kind in Los Angeles. His participation in high school and collegiate athletics has given him first-hand knowledge of what can occur during sports participation. His expertise in sports medicine is the reason professional athletes and sports organizations, such as USA Weightlifting, the DEW-NBC Action Tour, Cal State University Dominguez Hills, L.A. Southwest College, L.A. Harbor College, the Nike Real Run Professional Basketball League, and the Los Angeles Rugby Club, depend on him as their Chief Orthopedic Consultant. Dr. Feder served as Medical Director/Team Physician and Chief Orthopedic Consultant to the Long Beach Ice Dogs IHL Hockey Team for 7 years as well as the AVP (Association of Volleyball Professionals) for 10 years, and the L.A. Triathlon. Dr. Feder participated as a Team Physician in the 1996 Summer Olympics (Beach Volleyball) and the 2000 Summer Olympics (Olympic Weight Lifting). Dr. Feder is an orthopedic consultant to the National Hockey League (NHLPA) Players Association</p>						
18.	Carol	Frey		MD	<b>Lateral ankle sprains</b>	
<p>Carol Frey, M.D is considered one of the top international foot and ankle specialists. She works with Olympic athletes, Division I college players and the most complex and critical cases. She is a graduate of Stanford University, where she was a Division I swimmer. She is also a graduate of the University of Southern California (USC) School of Medicine. Her training includes a residency in orthopaedic surgery at the University of California, San Diego (UCSD). In addition, Dr. Frey completed a fellowship in foot and ankle surgery at the Hospital for Joint Disease/NYU in New York City. She also has completed a fellowship in orthopaedic research with Dr. Savio Woo and Dr. David Amiel at UCSD. Dr. Frey is a clinical assistant professor of orthopaedic surgery at UCLA and the former chief of the Orthopaedic Foot &amp; Ankle Service at the University of Southern California. She has been a member of the American Orthopedic Foot and Ankle</p>						

	<p>Society (AOFAS), the American Academy of Orthopedic Surgeons (AAOS), the Arthroscopy Association of North America (AANA), and California Orthopedic Association (COA) for over 20 years. Dr. Frey has held public office and served as a board member, program chairman, committee and course chairman, faculty member, task force member, spokesperson, educator, author and editor.</p> <p>She has published more than 100 manuscripts and book chapters, in addition to editing and authoring several books on sports injury and foot and ankle topics including: Current Practice in Foot and Ankle Surgery Vol I and II; AAOS Essentials of Musculoskeletal Radiology; Operative Techniques: Foot and Ankle Surgery; AAOS Essentials of Musculoskeletal Care; and Don't Worry My Mom is the Team Doctor. Dr. Frey is on the editorial board of Foot and Ankle International, MedScape and Orthopedics Today. Dr. Frey has shared her expertise through many media outlets, including ABC News, the Associated Press, CBS News, CNN, Dateline NBC, Good Morning America, the New York Times, People magazine, Readers' Digest, Runner's World, USA Today, The Today Show, 20/20, the Los Angeles Times, Time Magazine, Vogue, and the Wall Street Journal.</p> <p>Dr. Frey is a board-certified orthopedic surgeon, a diplomate of the American Board of Orthopedic Surgery, a fellow of the American College of Surgeons and a member of the American Academy of Orthopedic Surgeons.</p>								
19.	Ethan	Kreiswirth		PhD, ATC	<b>Regional Interdependence: A Diagnostic and Treatment Approach</b>				
<p>Dr. Kreiswirth received his undergraduate and graduate degrees from California State University, Dominguez Hills. He has earned his PhD in Athletic Training from Rocky Mountain University of Health Professions in Athletic Training. His current research is, The Epidemiology of Musculoskeletal Injuries among Brazilian Jiu Jitsu Fighters. Ethan is the owner of Kreiswirth Sports Medicine Systems, LLC, which delivers didactic and clinical programming of sports medicine needs. In the past, as the Medical Director for Velocity Sports Performance, Ethan has consulted with the Chinese Olympic Committee providing sports medicine mentorships overseas and in the United States. Additionally, Ethan is the Medical Director and Coordinator for the International Brazilian Jiu Jitsu Federation (IBJJF). Ethan was the Director of Athletic Training Education Program at Concordia University, Irvine in Orange County, California from 2008 to 2011.</p> <p>Ethan's additional positions include Medical Director of the All American Heavyweights Boxing Team, in conjunction with the 2012 USA Olympic Boxing Team, 11 years as the Head Athletic Trainer of California State University, Dominguez Hills (CSUDH) from 1997-2008, where he also served as adjunct faculty in the Kinesiology Department. Prior to CSUDH, Ethan was Head Athletic Trainer in the Minor League Baseball system with the Sonoma County Crushers. He also served as a Football Assistant ATC at Santa Monica College in the mid-1990s.</p> <p>Ethan also holds current certifications in the Functional Movement System, Selective Functional Movement Assessment, and Professional Rescuer Instructor for the American Red Cross. He has been a contributing author in peer-reviewed journals' such as International Journal of Athletic Therapy and Therapy, Journal of Athletic Training, and Athletic Training and Sports Health Care. Ethan has been a national speaker on Brazilian Jiu Jitsu injuries, as well as a multitude of sports medicine topics at the National Athletic Training Association Annual Symposium, Far West Athletic Training Association, National Strength and Conditioning Association symposium and Association of Ringside Professionals.</p>									
20.	Adam	Cady		MHS, ATC, CSCS, PA-C	<b>Groin Pain: Differential Diagnoses</b>				
<p>Adam C. Cady holds a Bachelor of Science degree in Kinesiology/Athletic Training from California State University-Fullerton, and a Master of Health Science from Duke University. He is also a graduate of the sports medicine fellowship program at The Steadman Clinic, and a three time NATA Research and Education Foundation scholarship winner. He currently works as a Physician Assistant with Dr. Michael Banffy at the Kerlan-Jobe Orthopaedic Clinic in Los Angeles, where he specializes in sports medicine.</p>									

21.	Charles	Ramos		MS, ATC, CSCS	<b>Cross over Effect</b>				
<p>Athletic Trainer at California Baptist University Charles Ramos is beginning his sixth year as an assistant athletic trainer at California Baptist University. He currently oversees athletic training responsibilities for the men's and women's water polo, wrestling and men's and women's golf programs for CBU.</p> <p>Since 2008, Ramos has been working as a certified athletic trainer. He started at St. Joseph Hospital in Orange, Calif., working specifically with the cast members in the entertainment and operations departments at Disneyland.</p> <p>Prior to that, he spent two years at Sage Hill High School in Newport Beach, Calif., serving as the head athletic trainer, overseeing the care, prevention, education and rehabilitation of 23 teams.</p> <p>Ramos spent three years working at various physical therapy locations throughout Southern California. He also served as a certified personal trainer, creating and implementing strength and conditioning programs at 24 Hour Fitness in La Mirada, Calif., from 2007-2008.</p> <p>Ramos did his undergraduate and graduate work at Cal State Fullerton where he worked with the wrestling, track and field, softball, women's volleyball, men's basketball and men's soccer teams. He also worked with Mt. San Antonio College football, Diamond Bar High School football and with Chivas USA of Major League Soccer.</p> <p>In 2008, Ramos completed his master's in kinesiology with a focus in clinical exercise science from Cal State Fullerton, and he completed the athletic training education program at CSUF in 2007. He earned his bachelor's in kinesiology with a focus in athletic training from Cal State Fullerton in 2004 and was a dean's list recipient in 2003.</p> <p>He received his athletic training certification in March 2008 and is also a certified strength and conditioning specialist.</p>
